K12 *Insight*

Smarter Surveys Smarter Schools

Engage — a DIY, cloud-based survey solution powered by K12 *Insight* — is built to help school districts create impactful surveys, gather community input, and drive meaningful change.

Measure and Take Action on Your Most Critical Issues

Choose customizable survey templates created by expert K-12 researchers to measure critical issues such as student and staff engagement, recruitment and retention, school quality, culture and climate, equity, safety, and more.

Listen to Every Voice

Translate surveys into more than 38 languages — ensuring every stakeholder in your community has the opportunity to be heard through email, text message and social media.

Simplify the Survey Process

Provide an individualized survey experience with professional-grade survey logic and formatting and pre-population features that lead to shorter, more engaging surveys and better results.

Discover Actionable Data

Easily segment, filter, and disaggregate data with analytic tools and dynamic reports to collect greater insights, and view current and longitudinal data to help guide the development of action plans to improve student success and school climate.

> "We use Engage throughout the year to check the pulse on our community's needs. The customizable surveys have helped us understand trending issues and create data-driven action plans to help our district thrive."
